SH

“ I love you, Uncle. May you rest peacefully now. I will deeply miss our porch conversations, especially the stories you shared about the journey you and Aunt Theresa lived together. Those moments meant the world to me.

When you reach your final resting place, please give my mom a big hug for me. I can only imagine the beautiful conversation you two will have when you see each other again.

Thank you for your love, your wisdom, and your presence. You will always hold a special place in my heart.

*Love you always,
Sharon*
